Teaching Philosophy

God musikalsk undervisning fokuserer på en solid utvikling av de mange grunnleggende elementene som kreves for å spille et instrument og i et ensemble. Jeg bruker mange metoder for å lære disse som er skreddersydd til individets/gruppens evner og interesser, fordi jeg tror at elevene lærer mer hvis de liker leksjonene sine og blir interessert i hele sin læring.

Musikk er en av de største lidenskapene mine, og jeg tror at alle burde ha muligheten til å få tilgang til det som jeg har vært så heldig å få oppleve. Jeg oppfordrer elevene mine til ikke bare å være fantastiske instrumentalister, men også avrundede musikere og enkeltpersoner. Det siste og kanskje viktigste elementet som jeg gir elevene mine er "confidence, confidence, confidence!"
